MEMORANDUM FOR COMMANDING OFFICER, NAVY PETROLEUM OFFICE
COMMANDER, AIR FORCE PETROLEUM OFFICE
DIRECTOR, ARMY PETROLEUM CENTER

SUBJECT: Policy on Funding of Filters for Fixed-Place Filtration Vessels

Effective immediately, DESC will fund all micron, coalescer and separator filter elements used in fixed-place filtration vessels that service DLA-owned fuel. This funding effort will not apply to replacement filter elements in non fixed-place filtration vessels or other mobile type filtration equipment (e.g., refueling trucks, bowsers, etc.).

To date, sixteen National Stock Numbers (NSNs) have been identified to DESC (see attachment) as filtration elements that should be covered by this new policy. Some of these NSNs are used with both fixed-place and non fixed-placed filtration vessels. If the Service Control Points (SCP) can provide any additional NSNs to DESC meeting the above criteria *(to include the catalogue name and type filtration unit it is used in)*, a modification to the attached ordering instructions will be issued by DESC. Accordingly, request each SCP provide the attached instructions for ordering filter replacements to their affected installations and/or MA(J)COMs/Major Claimants. The reordering instructions shall include restrictions as stated above for NSNs used in both fixed-place and non fixed-place filtration vessels.

DESC-R POC for questions regarding the funding policy for this initiative is Mr. Richard Sninsky, rsninsky@desc.dla.mil, telephone number (703) 767-8455.
